

communication to provide the customer with an electronic statement for storage in the portable device.

29. A self-service terminal for providing a receipt or statement to a customer at the terminal, the terminal comprising:

a digital data port for establishing wireless communication with a portable device retained by the customer;

means for preparing data relating to one or more transactions that have been executed for the customer; and

digital data transfer means for transferring the prepared data to the portable device via the digital data port to provide the customer with an electronic receipt or a statement relating to the one or more transactions that have been executed for the customer.

30. A terminal according to claim 29, further comprising identifier means in the vicinity of the digital data port for facilitating location of the port by the customer.

REMARKS

It is respectfully requested that the above amendment be entered prior to examination of this application.

By way of the present amendment, claims 1-5, 8, and 15-21 are canceled and new claims 22-30 are added in their place.

An early action on the merits is respectfully requested.

Respectfully submitted,

Michael Chan
